

Brushy Lane

\$332,350

Lancaster, MO 63548

Lot Size: 57.80 Acre
Listing #: 24066-22033
County: Schuyler

This property has everything you need to harvest that trophy whitetail, from dense cover to the twenty-three acres of row crop ground currently in production, paying \$2900 yearly. This property is located 1 mile north of State Route E, east of Queen City. This farm offers a great food source and tons of cedar thickets and bedding areas to hold that monster whitetail buck, evident in the trail camera pictures taken over the last month. This property will hunt much larger than 57 acres because of the multiple inside corners, pinch points, and topography of the ground. There is water and electricity at the gravel road bordering the west side of the property. This would be a great location if someone wanted to build their dream home or hunting cabin. Conveniently located approximately 12 miles from the Iowa line in Schuyler County. For a showing contact Jason/Broker/Salesperson at 660-342-2819, or Dave/Salesperson at 660-216-3405. *Property lines are thought to be accurate but are estimated.
